Subject: this country was built on free enterprise--

this country was built on free enterprise--
i applaude Bill Gates for what he has done . He is the best of the
best! why do those who can't compete with him try to take away all
that he has done ?

Bill Gates has given to all the folks who know nothing about computers,
a chance to learn.
If it weren't for Bill Gates, I never would never know how to surf the
internet

Bill Gates is a perfect example of folks who make a difference in our
lives,and how to improve ourselves!!

Why does the government try to stop creative people?

Bill Gates has given so many folks so many ways to use their computers,
and the rest of the industry is so jealous of what he has done.

I hope that Microsoft goes on forever!!
